

For Immediate Release

Weston Forest announces exclusive Canadian distribution of TIVA Building Products

Mississauga, Ontario – January 31, 2019

Steve Rhone, President of Weston Forest, is pleased to announce an exclusive Canadian distribution agreement with TIVA Building Products.

“We are excited to have the opportunity to partner with a company that shares our values and focuses on a great customer experience”, stated Rhone. “From design to purchase, right through to the installation, TIVA will be there to ensure you will continue to love doing business with us”.

Maximize your living and minimize the maintenance with TIVADEK PVC Decking and TIVADOK PVC Dock Boards. Using advanced Carbon Nanotechnology, TIVADEK and TIVADOK are industry leading PVC products that use the highest quality materials to make your outdoor oasis last a lifetime. TIVA has designed specialty wood colours and high performance boards that allow you to bring your living space outdoors with style and confidence. TIVA brings your outdoor space to life with an exclusive design palette and naturally inspired variegation and embossing. These elements combine to create a unique product that is both striking and authentic.

About Weston Forest

Weston Forest is one of North America’s leading distributors and remanufacturers of softwood & hardwood lumber and specialty panel products. Weston’s various business units serve the industrial crating and packaging sectors, provide specialty products to the construction and infrastructure sectors, and manufacture and distribute a wide variety of products to Lumber and Building Material dealers.

Weston Forest is honoured to be recognized as one of Canada’s Best Managed Companies, one of Canada’s Fastest-Growing Companies, and one of Canada’s Most Admired Corporate Cultures. We are also very proud to be a recipient of the Canadian Business Excellence Award for Private Businesses.

About TIVA Building Products

Headquartered in Mississauga, Ontario, TIVA Building Products has been in the plastic extrusion molding industry for over 20 years. TIVA’s vast experience in a rapidly changing industry has made them the plastics experts they are today. Over the last 15 years, TIVA has been conducting research and development with industry-leading experts to uncover the challenges and successes in PVC decking.

TIVA has researched throughout North America and gained first-hand insights from decking experts to top designers, and master builders to engineers. With this extensive knowledge, their team of mechanical and chemical engineers, alongside architectural and design experts, have created a PVC decking product that has exceptional performance and an exotic finish.
